

NORTHWEST SUMMER TAPESTRY is going...

ON SAFARI!

This summer Northwest Summer Tapestry will be exploring all kinds of animals that live on this planet.

Jump on board as we travel to many different continents.

We'll explore the wide variety of animals that inhabit this planet with us.

Get your hat and your binoculars!

Each group will become an animal, Some of the groups will be, Tigers, Monkeys and Bears. Groups will study their animal two afternoons a week. They will see video of their animal in it's natural habitat, learn its habits and defenses, what it eats, where it lives and more.

Tuesday thru Friday our morning rotations will learn about even more animals, elephants, giraffes, kangaroos, zebras, hyenas, wild horses, and more. During the morning rotations children will use their reading and writing skills, as well as do art projects and have gym class.

Mondays will be our all day field trips. We will be visiting many of the state parks in our area. These trips leave the school by 9:30 a.m. and don't return until about 3:30. Children who attend both Summer Tapestry and Summer Academy will go with Tapestry on the all day field trip.

Tuesday and Thursday afternoons are spent at White's Pool where children can practice their swimming skills and enjoy water play, bubbles, or other outdoor games.
